Access Over 600,000 U.S. Physicians

The American Medical Directory 31st Edition

This new, updated edition of the Directory provides *reliable* demographic, professional and credentials information for the entire U.S. physician population.

A valuable resource for:
- Locating Physicians
- Demographic and Practice Verification
- Credentials Verification

You can be assured that the Directory is the most accurate printed reference on U.S. physician data in the marketplace.

For product literature or to place an order, call the American Medical Association.

"With UARCO, you buy much more than forms... you buy knowledge."

— Howard Knaizer, Health Care Forms Specialist

"It's been my experience that most hospitals spend too much time worrying about the cost of forms, and not enough worrying about the forms of cost! It's this simple: Running forms through the system costs 20 times what the forms themselves cost. The real savings start when a trained, experienced UARCO consultant does a no cost analysis of the systems. I'm very surprised when we don't save the hospital more than enough money to pay for the forms.

Sure, we've got as complete a line of forms and distribution management services as anyone in the business . . . and a little more. Like custom printed 3M Post-it™ brand forms and Computer Aided Marking Systems. But in the end, I don't sell ink on paper . . . I sell knowledge."

For a free "Knowledge" Kit call 1-800-877-4132
